

Immediations – Urban Fabric, Infrastructure, Ecology

Presentation & Roundtable Discussion + Apéro

Monday, April 28, 18:00-20:00h
Corner College, Kochstrasse 1, 8004 Zurich

How can we think and engage with the urban fabric from material, philosophical, interactive, and performative points of view? How can we generate novel encounters and conceptualizations of activating the urban fabric collectively and through practices of research-creation?

From April 26-29 the EU-participants of the Partnership Research Grant *Immediations: Art, Media, Event* will experiment collaboratively investigating the notion of the urban fabric along questions of emergence, infrastructure, metamodelization, and ecology. For four days Zurich's Corner College will be the base for our explorations dealing with these questions. This workshop is the first EU-Meeting of the transnational research network with further hubs in Canada/USA and Australia (see <http://senselab.ca/wp2/immediations/>)

On April 28 we invite you to share our preliminary impressions, ideas, and insights. We consider our research as emergent and our structure as open – come and play with us!

Participants:

Jamie Allen, Copenhagen Institute of Interaction Design
Amélie Brisson-Darveau, IFCAR, ZHdK
Christoph Brunner, IFCAR, ZHdK
Nicole deBrabandere, IFCAR, ZHdK
Sher Doruff, Rietveld Academy, Amsterdam School of the Arts
Gerko Egert, Freie Universität Berlin
Jonas Fritsch, CAVI, PIT, Aarhus University
Victoria Gray, Chelsea College of Art

Thomas Markussen, Danish Centre for Design Research, Kolding School of Design
Stamatia Portanova, independent scholar
Bodil-Marie Stavning-Thomsen, Department of Aesthetics and Communication, Aarhus University
Annette Svaneklink Jakobsen, Aarhus School of Architecture
Evelyn Wan, Utrecht University
Verena Ziegler, IAD, ZHdK
